The directors having appealed to the Secretary of State for India to remit the arrears of rent up to and including the amount due on February 28, 1909, received a reply from the India Office in November, 1909, to the effect that the Secretary of State, whilst unable to sanction the remission of arrears, agreed as a temporary measure to accept, in lieu of the fixed annual rent of two lakhs of rupees, payment of the royalties actually collected by the company from native miners, less 10 per cent. collecting commission. The board accepted the concession made by the Secretary of State, but they continued to urge the remission of the arrears, in order to be in a position to apply the cash in hand to the development of new mining ground, and in January, 1911, the Secretary of State consented to relieve the company from the payment of £4,713, representing the government's accumulated share of profits, and in January, 1912, acceded to the company's request for the remission of the arrears of rent, &c., amounting to £19,228, on the understanding that expenditure estimated at £20,000 would be incurred on the development of new areas, but stipulated that, in any year in which the net profits available for the company (after paying royalties or rent, and the government's share of profits) exceed £18,000, equal to 10 per cent. on the paid-up capital, the company shall pay half the excess to the government until the amount so paid shall have reached the amount of debt remitted. The Secretary of State sanctioned the continuance of the arrangement by which, in lieu of the fixed payment for rent, the government has been receiving the actual royalties collected from native miners, for a further period extending to February 28, 1918. In September, 1914, however, the Secretary of State for India, in view of the special difficulties caused by the war, agreed to suspend recovery of the amount (£8,799) due by the company in respect of royalties up to and including the month of August, 1914, until the termination of the war, "on condition that the working of the mines be continued as at present."

The accounts are made up annually to February 28, and submitted in July. The first dividend paid was 5 per cent. in respect of 1898-9, and for 1899-1900 12½ per cent. was paid, and for 1900-1 and 1901-2, 17½ per cent. each year. For 1902-3 there was no dividend, this unsatisfactory result having been due to floods and other special causes; for 1903-4 15 per cent. was paid; for 1904-5, 7½; for 1905-6, 6d. per share; for 1906-7, 1s.; for the four years to 1910-11, nil; for 1911-12 and 1912-13, 6d. per share each year (free of income tax); and for 1913-14 and 1914-15, nil. Chillagoe, Limited.—*London Directors:* F. J. Gordon and W. D. Reid. *London Secretary:* E. Habben. *London Office:* Palmerston House, Old Broad Street, E.C.—The company was registered March 8, 1913, under the Companies Acts of Queensland, and is a third reconstruction of the Chillagoe Railway and Mines, Limited, formed in June, 1898, the company immediately preceding this having been registered in June, 1905, as the Chillagoe Company, Limited. The company owns railway and mineral concessions of copper and lead bearing properties granted by an act passed by the Queensland parliament in 1897, and other properties acquired since. The mining properties comprise about 888 acres on the Chillagoe and Etheridge fields, Queensland, while the company also owns coal areas at Mount Mulligan Coalfield, Queensland, amounting to several thousand acres. The original line of railway runs from Mareeba to Chillagoe, Queensland, is about 117½ miles in length (including 15½ miles of sidings and branch lines), was completed in August, 1901, and at the end of fifty years from its completion the Queensland government may acquire it at a value to be ascertained by arbitration, but not to exceed 10 per cent. advance on the cost of construction. In September, 1906, the old company was empowered to construct an extension of the railway from Chillagoe to the Etheridge goldfield, a distance of about 145 miles, and this line was completed in 1910, and is being worked and maintained by the Queensland government, which guarantees a subsidy of 2½ per cent. per annum on the whole cost of construction, but not exceeding £450,000, at which cost has been agreed, while all profits earned by the line in excess of that rate are to belong to the company; the government has undertaken to purchase the line at the end of fifteen years, the purchase price to be based on the average net earnings during the last five years of the fifteen.

The authorised capital is £600,000 in shares of 10s., of which £599,889 has been allotted and called up, the shares having been issued with 7s. credited as paid. In March, 1899, there were issued here by the then company £400,000 6 per cent. (see below) first mortgage debentures to bearer of £100 each at par, and with £50,000 issued in October, 1900, £50,000 in 1903, and £75,000 in 1909, the amount outstanding (after deducting debentures converted into shares under an option now expired) is £573,300; the amount of debentures originally authorised was £500,000, but in January, 1907, the holders consented to a further issue of £75,000 for the purpose of the Etheridge extension, referred to above. Coupons are payable April 1 and October 1, by the Bank of Australasia, 4, Threadneedle Street, E.C., or in Melbourne, and the debentures are repayable at par on April 1, 1919, but the company may redeem them at 110 per cent. (now) at any time, on six months' notice. A sinking fund is to be set aside out of the profits to redeem the debentures in 1919; while in January, 1907, it was decided to postpone such sinking fund until a time dating from the completion (1910) of the Etheridge extension. In the reconstruction in 1905 holders of the debentures agreed to accept deferred coupons for interest due and overdue at April, 1905, amounting to about £44,847 (such deferred coupons to be paid out of the first profits over 5 per cent. debenture interest—£14,985 was paid off in 1910-11, leaving £29,862 outstanding), and from that date to permanently reduce the rate of interest to 5 per cent., except in any year during which shareholders in the company shall have been paid dividends in excess of 1s. per share, when for such year the interest is to be 6 per cent.; further, the debenture holders agreed that for three years from April, 1905, the reduced rate of interest should be paid only from actual profits during that period. Coupons due October 1, 1905, were paid on November 1 at the rate of 4 per cent. per annum; those due April 1, 1906, were paid on that date at the rate of 3 per cent. per annum; and those due from October 1, 1906, to April 1, 1914 (both inclusive), were regularly paid at the rate of 5 per cent. per annum; but the coupons due October 1, 1914, and since have not been paid. Holders of shares in those two companies had the option of taking these debentures in lieu of cash, and the amount so taken was £1,183,260, while the remaining debentures were issued publicly in June, 1900, at par. Coupons are payable January 1 and July 1, and the debentures are repayable January 1, 1930, at par, the company, however, having power to pay off at any time (since June 30, 1904), on six months' notice, at 105 per cent., while in the event of the company making sales of any portion of the properties charged the proceeds are to be applied in redemption of debentures, at 105 per cent., by drawings, or by purchase if obtainable below 105. There is also debenture stock for £92,800, balance outstanding of £95,420, issued in exchange for debenture stock of the old company; the stock carries interest at 4 per cent., calculated to May 31 and November 30 in each year (and payable August 31 and February 28), but if in any year sufficient profits are earned to pay a dividend of 10 per cent. on the share capital, then the debenture stockholders are to be entitled to further interest at the rate of 2 per cent. As from November 30, 1912, the interest is a charge upon all the revenue and assets of the company. After paying 10 per cent. dividends on the share capital and 6 per cent. on the debenture stock, one-half of the surplus revenue of the company is to be set aside towards a fund for the redemption of debenture stock, for which, however, there is a further provision that redemption is to be effected by drawings, for repayment at par, at the rate of not less than £5,000 per annum, the first to take place in January, 1914, but power is reserved for the trustees from time to time to dispense wholly or in part with drawings and this power was exercised in January, 1914, when only £2,600 of the £5,000 of stock was redeemed, the repayment of the remaining £2,380 being postponed. The proceeds of the sale of any of the existing assets are to be applied exclusively to the redemption of debenture stock, while the trustees have power to apply any such moneys in the purchase of stock which may be offered for sale under par. Stockholders have the right at any time of converting their stock into shares at par. In October, 1911, 10 per cent. debenture stock for £6,000 was issued. Michoacan Railway and Mining Company, Limited.—*Directors:* G. A. Mitchell, W. J. H. Moll, Capt. C. H. Potter and T. B. R. Scott. *Secretaries:* G. A. Mitchell and Co. *Office:* 2, Suffolk Lane, E.C.—The company was registered January 29, 1889, to acquire a concession from the Mexican government for a narrow-gauge line, and also to acquire mines containing silver and other metals in the state of Michoacan, Mexico. The railway completed under the concession has been transferred to the Michoacan and Pacific Railway Company, Limited, for £5,000 cash, £60,000 in fully-paid shares, which are held by trustees on behalf of the prior lien debenture-holders of this company, and £30,000 in 6 per cent. debentures, of which this company now holds £18,600, and the right to build another line was also transferred to the Michoacan and Pacific Company, and by it transferred to the Mexican Central Company, £4,000 of the purchase money being paid to the Michoacan Railway and Mining Company. The company now, therefore, only owns mining properties (leased until July 1, 1933, to another company, as mentioned below), and securities of the Michoacan and Pacific Railway Company.

Late in 1901 a scheme for the reduction and reorganisation of the capital was sanctioned by the court and has been carried out. The authorised capital is now £105,364 in shares of £1, £21,015 being in A preference shares, £12,190 in B preference, £70,745 in ordinary, and £1,414 in founders' shares. Subject to the sinking fund hereafter mentioned, the A and B preference shares rank equally for 7 per cent. non-cumulative dividends until all the debentures have been paid off, after which the A preference will be entitled to receive an extra 7 per cent. non-cumulative dividend in any year in which 5 per cent. shall have been paid on the ordinary shares. The founders' shares rank each as 50 ordinary, both as regards dividend and any distribution of assets. All the A and B preference, £64,751 of the ordinary, and all the founders' shares have been issued and paid up, the B preference shares having been allotted for arrears of prior lien debenture interest. There are also 4 (formerly 6) per cent. registered mortgage debentures of £100 each for £103,000, with interest payable January 1 and July 1, and the principal repayable at par July 1, 1919, the company, however, having power of redemption at any time, on six months' notice, at par; and £27,090 5 (formerly 7) per cent. prior lien debentures, with interest payable January 1 and July 1, and the principal repayable July 1, 1919. After meeting interest on both classes of debentures (cumulative), £1,000 from revenue is to be set aside as a sinking fund, and any surplus is to be applied in paying the dividend on the A and B preference shares, and (then) 2 per cent. on the ordinary shares, non-cumulative, with a proportionate dividend on the founders' shares, any balance to be carried to the sinking fund until all the debentures are paid off. The sinking fund is to be applied: (1) in purchasing prior lien debentures below 110 per cent.; (2) in drawing prior lien debentures at any time at 110 per cent., on giving three months' notice; (3) in purchasing mortgage debentures below 110 per cent.; (4) in redeeming mortgage debentures at 110 per cent. at any time, on giving three months' notice. Interest on the prior lien debentures has been paid to date, but that on the mortgage debentures is in arrear as from July 1, 1902.

The accounts are made up annually to December 31, and submitted about August. Interest on the debentures fell into arrear in 1893, and all arrears to the end of 1901 were paid in shares under the reorganisation plan of 1901. In 1905 there was a loss on working the mining properties (after charging full interest on the debentures—that, however, on the mortgage debentures being largely in arrear) of £3,562; in 1906 a profit of £351; in 1907 a loss of £14,800; in 1908 a profit of £2,937; in 1909 a profit of £2,104; in 1910 a loss of £3,056; in 1911 a loss of £2,814; in 1912 a profit of £654; and in 1913 a profit of £3,806, leaving a debit to profit and loss at December 31, 1913, of £34,461. The property is under lease (extended in 1913) to the American Smelting and Refining Company until July 1, 1933, at a minimum annual rent of $50,000 (Mexican), and one-half the profits on operations after the lessees have been reimbursed all their outlays on development, &c. Cash balance at December 31, 1913, £18,518; short loan to other parties, £20,000; sundry debtors, &c., £2,467; sundry creditors, £8,823 (exclusive of £47,380 arrears of interest on the mortgage debentures). Owing to the unsatisfactory condition of affairs in Mexico, no accounts have been issued for 1914, but this notice has been officially revised. The colonial treasurer may agree with the company that the profits or any portion thereof may be applied to a reserve fund, and subject to this reservation 60 per cent. of the net profits go to the government; the preference shares then rank for cumulative dividends of 250 per cent. per annum, surplus profits going to the deferred. In the event of liquidation the preference shares rank in priority to the deferred shares for £8 6s. 8d. per share.

In the year to October 31, 1912, the value of diamonds found was £2,004,943; in 1912-13, £2,336,828; and in 1913-14, £1,259,643, while after providing for the dividend on the preference shares to April 30, 1914, and the dividends on the deferred shares, as above, and appropriating £47,095 from the trading and emergency funds, a credit balance of £116,567 brought down was reduced to £13,244, in addition to which, however, there was a profit held in suspense of £593,074, represented by diamonds not yet realised. Trading and emergency funds, £282,260, these funds belonging to the Crown and the company in the proportion of their respective interests in the mine. Owing to the war all mining, hauling and washing operations ceased on August 10, 1914, but in November, 1915, it was announced that working would be resumed on a limited scale on January 1, 1916. A special meeting was held at Johannesburg on November 11, 1915, when resolutions (which are to be confirmed on November 26, 1915, and December 7, 1915) were passed sanctioning a scheme of reconstruction. It is proposed to form a new company, to be called Robinson Deep, Limited, with a capital of 500,000 cumulative preference shares of 1s. each (A shares) and 900,000 shares of £1 each (B shares) to acquire, as from July 1, 1915, the assets of the Robinson Deep Gold Mining Company, Limited, together with adjoining claim and mynpacht holdings equal to a claim area of 342¼ claims, and freehold land about 630 acres in extent. The A shares, which are to be allotted to the shareholders of the Robinson Deep Gold Mining Company in exchange for their present holdings (that is, one new share for every two old), will be entitled to cumulative preferential dividends as follows: From July 1, 1915, to December 31, 1919, 8s. per share per annum; from January 1, 1920, to December 31, 1936, 3s.; for 1937, 2s. 6d.; for 1938 and 1939, 1s. 6d.; and for 1940, 6d.; while the face value of 1s. per share is to be repaid after December, 1940, and the shares extinguished. In the event of prior liquidation the A shares will be entitled preferentially (in addition to the return of their nominal capital and of any dividends in arrear) to the capitalised value of all dividends outstanding. The proposed new company will be under the management and engineering control of the

Consolidated Gold Fields of South Africa, Limited, which undertakes that holders of A shares shall during the month of December, 1919, have the right to call upon the Consolidated Company to deliver to them B shares (share for share) in exchange for half their holding of A shares. Of the B shares, 681,800 are to be issued fully paid to the vendors of the above-mentioned claim and mynpacht holdings, &c. As regards the cash assets which the Robinson Deep Gold Mining Company would contribute to the proposed fusion, the engineers estimate that the amount at present earmarked under the head of renewals, and the utilisation of the accumulated funds set aside for the purpose of amortisation of the water-right claims, together with the surplus net profits after provision has been made for the preference dividends, will suffice to carry out the shaft sinking and development work contemplated during 4½ years, after which date the net surplus profits, after providing for the A shares, will be available for dividends on the B shares. Per contra, the Consolidated Gold Fields of South Africa, Limited, and the Central Mining and Investment Corporation, Limited, agree for a period of seven years to advance to the proposed new company, if and when required for development and other working purposes, up to £300,000. The A shares are to have equal voting rights, share for share, with the B shares up to December 31, 1936, namely, one vote for every share; during 1937 they are to carry eight votes in respect of every 10 shares, during 1938 and 1939 five votes in respect of every 10 shares, and during 1940, and until they are paid off, two votes in respect of every 10 shares.

Syndicat du Yunnan, Limited.—*Directors :* S. Simon (Chairman), H. E. M. Bourke, Sir F. E. A. Corbett, Bart., Comte G. de Germiny and E. Phillips. *Secretary :* H. B. Clefford. *Office :* 21, Great Winchester Street, E.C.—The company was registered October 17, 1899, as the Anglo-French Syndicate, Limited, the name being changed as above in 1900. The company carries on a financial and exploration business. "In 1902 the syndicate obtained a valuable concession conferring mining and other rights over seven departments in the province of Yunnan. This concession was subsequently ratified by the Imperial government at Pekin, and officially attested by the English and French Ambassadors at Pekin. The minerals embraced in the concession include copper, gold, silver, coal, iron, tin, platinum, nickel and quicksilver, as well as precious stones and petroleum, and the areas allocated to the syndicate embrace the territory opened up by the New Hanoi Yunnan-fu Railway now under construction." The concession was for sixty years, renewable for a further twenty-five years.

The authorised capital is £35,000, £34,875 being in ordinary shares of £1, and £125 in deferred shares of 1s., and £34,835 of the ordinary and all the deferred shares have been subscribed and called up. The ordinary shares are to take all profits until they shall have received dividends aggregating 100 per cent., after which profits are to be divided—as to 50 per cent. amongst the ordinary shares, 40 per cent. amongst the deferred, and 10 per cent. amongst the directors. The accounts are now made up annually to September 30, and submitted about November. Early in 1907 the syndicate transferred its rights in the department of Lin-Ngan to a French company (Société d'Exploitation de Lin-Ngan) for £4,500 in cash and £15,750 in shares out of a total capital of £37,000; in respect of these shares a full return of capital has been made. Efforts to develop the concession held by the syndicate having to a large extent been frustrated by the opposition of the local Chinese authorities, negotiations were entered into in 1911 for the sale of the concession to the Chinese government, which offered the sum of 1,500,000 taels for the rights and property of the syndicate in Yunnan, as well as those of its subsidiary, the payment to be made by half-yearly instalments over a period of two-and-a-half years; the company accepted this offer, and the first instalment of 250,000 taels (£31,775) was received, but owing to the political unrest in China the liquidation of the balance is in abeyance, the government, however, having agreed to pay interest on the amounts overdue. In the year ended September 30, 1913, the total income was £17,587, consisting mainly of interest and exchange on amounts paid and due by the Chinese government in respect of the sale of the concession (less amounts payable to participants and others) and a return of 40 per cent. (£6,231) of the capital of the Société d'Exploitation de Lin-Ngan, and the net result was a profit of £16,517, increasing a credit balance brought down to £44,497, out of which a dividend of 100 per cent., free of income tax, was paid on the ordinary shares, leaving £9,662 to be carried forward; and in 1913-14 the total income, including a further return of 35 per cent. (£5,449) of the capital of the Société d'Exploitation de Lin-Ngan, was £11,736, and there was a net profit, after setting aside £3,000 for directors' remuneration for a period of fourteen years, of £7,444, increasing the credit balance brought down to £17,107, which was carried forward. In 1901 a prospecting concession over 60,000 square miles in the Belgian Congo was acquired, with the right, on certain conditions, to work any discovered mine for 99 years in conjunction with the Katanga special committee, representing the Belgian Congo government and a Belgian company (Compagnie du Katanga) operating in the Congo, 60 per cent. of the profits going to the committee and 40 per cent. to the company. In 1906 the Union Minière du Haut-Katanga was formed under the laws of the Congo Free State (now the Belgian Congo), to acquire the whole interests in all the deposits discovered in the Congo up to December, 1906, these consisting of a copper belt about 200 miles in length, a tin belt nearly 110 miles in length, iron deposits and the Ruwe gold mine; the principal mines are the Kambove and the Star of the Congo, and smelting at the latter mine commenced in August, 1911. In January, 1909, the Rhodesia-Katanga Junction Railway and Mineral Company, Limited, was formed to construct a railway from Rhodesia, Broken Hill, the terminus of the Mashonaland system, to the frontier of the Belgian Congo, and to acquire the Rhodesian assets of the Tanganyika Concessions, including the Kansanshi copper mine and all coal areas. Interest accruing on the debentures up to December 31, 1911, was satisfied by the allotment of fully-paid debentures of the same series, but no further debentures may now be created to rank pari passu with or in priority to this issue. The debentures were issued with the right of conversion at the option of the holders, at any time up to December 31, 1911, into fully-paid shares at the rate of one fully-paid share for every £8 of debentures. The debentures are secured by a trust deed creating a specific charge on 90 per cent. of the issued share capital of the Benguella Railway Company, and on the shares of the Union

Minière du Haut-Katanga. White. *General Managers:* Bewick, Moreing and Co. *Secretary:* F. A. Crew. *Office:* 20, Copthall Avenue, E.C.—The company was registered July 8, 1911, under the English joint stock com-

panies acts, with the object of amalgamating a company of the same name, registered October 18, 1905, under Victorian laws, and the Broken Hill South Blocks, Limited, registered November 10, 1905, under English laws. The company owns large quantities of tailings from the mines at Broken Hill, New South Wales, which are being treated for the recovery of the zinc and other contents, and properties covering an area of 160 acres, situate at Broken Hill, New South Wales, and producing lead, silver and zinc ore. In September, 1914, the directors announced that in consequence of the war the contract for the sale of zinc concentrates to the smelters in Germany was void, that the market for lead was disorganised and restricted, and that the Broken Hill Proprietary Company, to whom the lead concentrates were sold, had availed itself of the war clause in its contract, and was not operating its smelters. In the following month, however, an arrangement was made with the Broken Hill Proprietary Company to smelt a reduced tonnage of leady concentrates from the corporation's lead mill. The Broken Hill Associated Smelters Proprietary, Limited, has since been formed to acquire the smelters from the Broken Hill Proprietary Company, and the Zinc Corporation has an interest of £100,000 in such company. The new company took over the works at Port Pirie on June 2, 1915, and the capacity of the plant is being increased.

The authorised capital is £575,000, £245,692 being in preference shares of £1 and £329,308 in ordinary shares of 10s. The preference shares rank first for cumulative dividends of 20 per cent. per annum and are to share pro rata with the ordinary in surplus profits in proportion to the capital paid up, the ordinary shares for this purpose being considered as shares of £1. In the event of a winding up the arrears of preference dividend (if any) are to be paid first, then the amount paid up on the preference shares is to be repaid, and then the ordinary shares are to be repaid, the ordinary shares in that event to be deemed to be of the capital value of £1 each, any residue to be divided amongst the two classes rateably in proportion to the amount of capital paid up. The whole of the preference shares and £326,569 10s. of the ordinary have been allotted, all except £3 10s. of the ordinary having been issued fully paid to the shareholders in the old companies.

The accounts are made up annually to December 31, and submitted in June. For the half-year to December 31, 1911, dividends amounting to 15 per cent. were paid on the preference shares and 10 per cent. on the ordinary; for 1912 37½ per cent. and 35 per cent. respectively were paid; and for 1913, 35 and 30; while in 1914 only the cumulative preference dividend was paid. Carried forward, £98,883. Burg, Dundee, Verulam and many other places." Newton. *Office:* Savoy Court, Strand, W.C. Telegraphic address, Water Board, Rand, London. Telephone numbers, 4315-19 Gerrard.—By the Metropolis Water Act of 1902 the Metropolitan Water Board was established, and, as from June 24, 1904, has taken over the undertakings of the eight Metropolitan water companies, assuming the liability for all their debenture stocks and paying off practically all the holders of ordinary and preference stocks by the issue of Metropolitan Water (B) stock, holders of the old ordinary and preference issues who did not accept the offer of repayment in such stock having been paid off in cash. Under Section 7 of the above-mentioned act the irredeemable debenture stocks were converted as from April 1, 1906, into Metropolitan Water (A) stock. The board consists of 66 members appointed by various constituent bodies, and the security for the debenture stocks and the A and B stock is the Water Fund, and all other revenues of the board. These include a rate leviable to meet any deficiency in the water fund, whether for satisfying past or future liabilities, upon the rateable value of the city and metropolitan boroughs, and of the extra-metropolitan municipal boroughs and urban districts, the councils of which are represented on the Water Board, in proportion to the rateable value of the hereditaments supplied with water. The registers for the A stock and debenture stocks are kept at the office as above, and transfers are effected on common forms; fee, 2s. 6d. Debenture stock, with the exception of Staines Reservoirs, is transferable in multiples of £1, and the A stock and Staines Reservoirs debenture stock in any amount, while the B stock is inscribed in the books kept at the Bank of England, and transfers can be made free of charge or stamp duty in any amount (for particulars as to method of transfer, issue of warrants to bearer, &c., see Bank of England notice). Napier Harbour Board.—Two issues of bonds have been made here on behalf of the Napier Harbour Board, N.Z., by the Bank of Australasia, 4, Threadneedle Street, E.C. The loans are secured upon the revenue of the Harbour Board, as well as upon the rates which may be levied on all rateable property within the "Napier Harbour Rating District," certified in December, 1914, to be of the value of £18,326,526. Besides the two loans mentioned below, and 5 per cent. debentures for £43,000, raised locally at par, the Harbour Board has no funded debt. In 1914 the revenue from the harbour was £50,599 while the revenue from the rates for the year was £11,673, the rate imposed having been $\frac{22}{100}$d. and $\frac{44}{100}$d. in the £, and at December 31, 1914, there was a debit to general account of £556. The particulars of the loans are as under, and all payments are made by the issuing bank, in London or Napier, at the option of the holder; both issues are quoted in the official list:—

£300,000 Five per cent. debentures of £100 each, offered in July, 1885, at a minimum of par, and allotted at £104 1s. 6d. per cent. and upwards, the average price having been £104 5s. 2d. Coupons are payable January 1 and July 1, and the principal is due January 1, 1920. Latest price, 98½.

£200,000 Five per cent. debentures of £100 each, offered in July, 1893, at a minimum of 98 per cent., and allotted at and above that figure. Coupons are payable January 1 and July 1, and the principal is repayable January 1, 1928, while a sinking fund of ½ per cent. per annum is up to the present being invested against that date; amount of sinking fund at December 31, 1914 (invested in mortgages), £34,565. Latest price, 100½.

Neath Harbour Commission.—*Office:* Victoria Chambers, Neath.—On an issue of £370,000 5 per cent. mortgage debentures interest fell into arrear in 1885, and it was not until 1901 that a plan for the settlement of the debt was effected. Under the Neath Harbour Act of 1901 an issue of £37,000 of mortgage debentures of £10 each was created to replace the above-mentioned; they are repayable by July 2, 1921, from a sinking fund of 1 per cent. per annum, to be applied by annual drawings in May, and by this means the above amount of £37,000 has been reduced to £34,880. The debentures carry fixed interest of 2½ per cent. per annum, which is regularly paid annually on July 1, as from 1902, together with such further interest as may be declared at any annual general meeting of debenture holders, but not exceeding 10 per cent. in all. For 1911-12, 1912-13 and 1913-14 the interest paid on the debentures was 3 per cent. each year; and for 1914-15, 2½ (free of income tax). The commissioners were, moreover, authorised to raise £20,000 as a first charge on the undertaking, but this power has not yet been exercised. The undertaking was for a long time under the control of a receiver and manager appointed by the court, but he has since been discharged. The income for the year to March, 1911, amounted to £4,005; to March 1912, £3,407; to March, 1913, £3,200; to March, 1914, £3,586; and to March, 1915, £3,030.

New Plymouth (N.Z.) Harbour Board.—In April, 1909, the Bank of New Zealand, 1, Queen Victoria Street, E.C., issued £275,000 (part of £300,000 authorised) 4½ per cent. bonds of £100 each of the New Plymouth Harbour Board, N.Z., at 101 per cent. The object of the issue was mainly to provide funds for the redemption of pre-existing 6 per cent. debentures for £145,550, holders of which were given a preferential allotment in the new issue. Coupons are payable May 1 and November 1, and the bonds fall due May 1, 1939, all payments being made by the issuing bank. A sinking fund of 1 per cent. is provided. Besides the above, the board has no loan indebtedness. The bonds are secured by a first charge on the land revenues of the board, upon the rents, profits and dues chargeable, and upon a special rate (varying between ¼d. and ¾d. in the £ according to the district), authorised by act of 1908 to be levied on the capital value of all rateable property in the areas of the Taranaki Land District. In 1914 the total ordinary revenue of the board, including land revenue, amounted to

£20,536, and the ordinary expenditure, including the service of the 4½ per cent. bonds, to £19,887, and at the close of 1914 there was an excess of assets over liabilities of £77,337. The bonds are quoted in the official list; latest price, 92½.

Newry Port and Harbour Trust.—*Secretary:* E. A. Lamb. *Office:* Harbour Office, Newry.—The undertaking of the Newry Navigation Company was, by the Newry Port and Harbour Trust Act, 1901, sold to trustees (15 in number) for a total of £26,400 in cash, the transfer having taken place October 6, 1902. The security of the debenture bonds was undisturbed by the Act of 1901, they continuing to be a charge on the undertaking. There have been issued £72,000 4 per cent. mortgage debenture bonds of £100 each (part of £80,000 authorised), with interest payable April 5 and October 5, and the principal repayable October 5, 1947, with the right to the trustees to repay the whole issue at any time after October 5, 1922, at 103 per cent. A sinking fund is provided, which may be employed in the purchase of bonds, and bonds for 10,083 have been redeemed. There are also loans for £25,895 (outstanding balance of £33,000), repayable by annual instalments of £976 10s. 3d. each, commencing in 1903.

The accounts are made up annually to March 31, and submitted in June. Credit balance at March 31, 1915, £5,479, as against £6,557 brought into the accounts. Transfer form, common; fee, 2s. 6d.

The first three issues are quoted in the official list—the consolidated 5 per cent. debentures to the extent of £443,100—and subjoined are the particulars, all payments in London being made by the agent as above. In the year 1911 income amounted to £89,884, and expenditure, including interest (not sinking fund), totalled £103,888; in 1912 the amounts were respectively £96,946 and £99,586; in 1913, £89,621 and £98,936; and in 1914, £94,952 and £91,369.

The balance was held back against the three issues previously made here, the holders of which often (with the exception of the 5 per cents. of 1883, the option of which closed in July, 1900) have the option of converting into the new bonds, and as bonds of the first-mentioned issue are drawn for repayment debentures of this issue are placed. Coupons are payable January 1 and July 1, in London or New Zealand, and the principal falls due January 1, 1934. Latest price, 97¾.

Pontypridd and Rhondda Joint Water Board.—*Accountant to the Board:* J. Simmons. Telephone number, 289, Pontypridd.—As from January 1, 1911, the undertaking of the Pontypridd Water Works Company has been transferred to the Pontypridd and Rhondda Joint Water Board, which also took over the liability for £42,600 3 to 3½ per cent. debenture stock issued by the Water Works Company. Interest on the debenture stock is payable January 1 and July 1, and although perpetual, the board is obliged to create a sinking fund for its redemption in 55 years from January 1, 1911; stock for £3,062 has been purchased and cancelled, leaving £39,538 outstanding. In addition to the above debenture stock, there are mortgage loans for £333,160, £313,923 carrying interest at 3¾ per cent., £3,870 at 3⅝ per cent., and £15,367 at 4 per cent., payable March 31 and September 30. Any deficiency in the board's revenue is made good by the Rhondda and Pontypridd Urban District Councils respectively.

Poole Harbour.—*Clerk to the Commissioners:* H. F. W. Gwatkin. Telephone number, 12, Poole.—The trustees of the quays and harbour of Poole (now the Poole Harbour Commissioners) invited applications in January, 1895, for an issue of £10,000 4½ per cent. debentures (with interest payable January 1 and July 1), at the minimum price of 95 per cent., this being the balance unissued of a loan authorised of £20,000, and £20,400 in all has been placed, the excess over the authorised amount being due to the fact that some of the debentures were issued at a discount. The debentures are to be redeemed by annual drawings at par, four bonds at least to be redeemed in each year, while all bonds outstanding are to be repaid on June 1, 1943; amount outstanding, £11,600. In April, 1896, 4½ per cent. debentures for £5,000 were offered at a minimum of par, and the whole amount was allotted; they are redeemable by annual drawings at par, while the whole amount is to be paid off by June 1, 1926, this issue ranking after the foregoing; amount outstanding, £2,700. In July, 1909, the commissioners made an issue of $100,000 3½ per cent. debentures, and they have power to make a further issue of $200,000 of debentures for work in hand ($135,000 disposed of up to July 1, 1915). The revenue of the commissioners is derived almost entirely from rentals paid by certain companies for the right to take water from the river above the Falls for the purpose of generating electricity. The total revenue in 1914 was $269,434, which included a balance from the previous year of $58,103, and the total expenditure was $160,661.

Ramnad Raj Sterling Loan.—*Trustees for Debenture Holders:* Sir B. Leslie, K.C.I.E., and W. A. Browne.—Messrs. Ogilvy, Gillanders and Co., 67, Cornhill, E.C., in May, 1899, made an issue at the price of 102 per cent. of £175,000 5 per cent. first mortgage debentures of £100 each, to bearer, secured by a first mortgage on the hereditary domains of the Rajah of Ramnad. Coupons are payable January 1 and July 1, and the debentures are redeemable in 30 years from 1910, at 103 per cent., by a cumulative sinking fund applied to annual drawings (in June), all payments being made by the issuing firm. The domains mortgaged have an area of about 2,350 square miles, and taking the rate of exchange at 1s. 4d. per rupee, the receipts in the year to June 30, 1896, were £48,661; in 1896-7, £47,182; and in 1897-8, £44,814; the average expenditure in the seven years to June 30, 1898, was £32,368 per annum; in 1898-9, £49,132; in 1899-1900, £46,678; in 1900-1, £53,651; and in 1901-2, £49,552, while from July, 1909, the revenue was increased by about £8,000 per annum. With the approval of the government of Madras the properties have been vested in and placed in charge of a retired government official as Dewan trustee, who, under the terms of the trust deed, is to maintain in the hands of the trustees a sum of £15,658 to insure the punctual payment of the government rent and road cess and the interest on the loan. Amount outstanding, £157,000. The debentures are quoted in the official list; latest price, 98.

Rand Water Board.—In March, 1905, Messrs. Speyer Brothers, 7, Lothbury, E.C., having purchased £3,400,000 of Rand Water Board 4 per cent. stock, offered £1,200,000 for sale at par, £2,200,000 having already been subscribed for on the terms of the prospectus, and allotted in full. Interest is payable January 1 and July 1 by the National Bank of South Africa, Limited, Circus Place, London Wall, E.C., and unless arrangements have been made to the contrary, warrants are sent by post. The stock is redeemable at par March 31, 1935, but the board may at any time purchase stock in the market for cancellation, or for the purpose of investment on redemption fund account. The board was established under ordinances of 1903 and 1904, for the purpose of supplying the mining industry of the Witwatersrand and the whole of that district, including the town of Johannesburg and six other municipalities, with water, and to acquire the water undertaking of the Braamfontein Company, Limited, and the whole undertakings of the Johannesburg Waterworks Estate and Exploration Company, Limited, and the Vierfontein Syndicate, Limited, together with all the benefits and obligations attaching to the various contracts, rights and leases held by these companies. The stock is secured on the water fund and other revenues of the board, and on a special rate which the board is empowered to levy, to meet any deficiency in the ordinary revenue, on properties valued for 1914 at about £42,551,000 as regards the municipal section, and about £175,000,000 as regards the mining section. The stock is inscribed in books kept by the National Bank of South Africa, London, and is transferable by signature in the books, without charge and free of stamp duty, in amounts of £1 and multiples. The stock is quoted in the official list; latest price, 86.

The board having adopted a scheme for taking water from the Vaal River, a bill was passed through the Union Parliament in 1914 authorising the raising of a new loan, by means of the issue of stock or otherwise, of not more than £1,250,000, for the purpose of carrying out such scheme.

Under the board's Further Powers Act, No. 22 of 1909, as amended by Act, No. 18 of 1914, the whole of the fixed charges for interest and redemption on the present issue of stock are payable, as to 7½ per cent. by the South African Railway Administration, and the remaining 9½ per cent. in equal shares, by the municipalities and the producing mines, respectively, within the "limits of supply." The provisions governing the levying of the special rate, referred to above, still exist in the board's statutes, but have become virtually inoperative in view of the financial provisions of the Further Powers Act, and of the 1914 statute. The board has now been placed in the position of fixing its price for water at the actual cost of pumping and delivering it, exclusive of interest and redemption charges.

The accounts of the board are made up annually to March 31. In 1914-15 the sales of water, together with the contributions to the fixed charges on Rand Water Board stock and sundry receipts, amounted to £315,862. Of this amount £136,000 was applied in payment of interest on stock, £63,067 was transferred to redemption, £9,471 to a reserve fund, £5,080 to renewal fund, and the balance was required to meet working costs. At March 31, 1915, the redemption fund amounted to £664,848, represented to the extent of £557,130 by that amount of Rand Water stock. The reserve fund at that date was £23,673, and the renewal fund £73,245.

A sinking fund is provided for all loans. For the financial year 1908-9 the revenue of the commissioners (excluding debt account) was £192,430, and the expenditure (excluding debt account, but including interest and sinking fund, and amount transferred to reserve funds), £195,800; while for 1909-10 the figures were £195,420 and £223,020; for 1910-11, £231,100 and £230,510; for 1911-12, £244,220 and £247,140; for 1912-13, £292,897 and £258,053; for 1913-14, £345,652 and £289,616; and for 1914-15, £302,552 and £284,989.

The bonds are secured by a trust deed executed on behalf of the Monastery of San Bento, of Rio de Janeiro, head of the Benedictine Order in Brazil, and constituting a first charge on certain freehold lands, with business premises and residential buildings of modern types in the city of Rio de Janeiro, valued at £600,000, and from which the net revenue derived in the year 1913 was equivalent to £42,815. Interest is payable January 1 and July 1, and the principal is repayable July 1, 1959, by the operation of a sinking fund, commencing in 1915, and applicable to purchases in the market at or below par, or to drawings at par, while (now) the bonds are redeemable either wholly or in part, on any interest date, on six months' notice, at 103 per cent.; bonds for £2,100 have so far been purchased. The proceeds of this issue were in part to be applied to the repayment of bonds for £187,500, and the balance for the construction of further buildings, &c. Interest charges have been met to date. All payments are made by Lloyds Bank, free of Brazilian state, municipal or federal taxes.

River Wear Commission.—*Clerk:* J. G. Morris. *Office:* St. Thomas Street, Sunderland.—The total amount of the capital debt on December 31, 1914, was £2,513,625, made up as follows: amount raised on bonds and mortgages, £1,711,671; sundry other loans (including the balance of a loan advanced by the Public Works Loan Commissioners on a special security for the purposes of the new protecting piers), £226,423; funded debt (4½ per cent. annuities), £363,721; and funded debt (3 per cent. annuities), £211,810. The mortgages have been issued for various amounts, at rates of interest ranging from 3 per cent. to 4 per cent. per annum (principally 3¾ and 4), and are repayable either at fixed periods, or on six months' notice. In October, 1915, the commissioners were borrowing at 4½ per cent. In April, 1896, £142,000 funded debt (3 per cent. annuities) was offered for tender through Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C. and the York Union Banking Company, Limited (since absorbed by Barclay and Co., Limited), at a minimum of par, and allotted at 101¾ and upwards, the average price being £102 7s. 9d. per cent. The funded debt is transferable, on a special form of transfer, in such amounts (except fractions of £1) as the holders think proper; and the fee for registering transfers of the 4½ per cent. funded debt is 2s. 6d. (in addition to stamp duty), but there is no registration fee or stamp duty on transfers of the 3 per cent. funded debt. The holders of the funded debt, whether created at one time or at various times, have not, as between themselves, any preference or priority. There are no specified dates for its redemption, but the commissioners have the power to redeem at par, by means of a sinking fund of £4,000 per annum, any portion of the funded debt, on giving to the holder six months' notice in writing; and it is their intention to use the £4,000 per annum in the first instance in the redemption of the 4½ per cent. funded debt, a portion of which has already been so redeemed. The interest on the mortgage debt and the funded debt annuities is paid on January 1 and July 1, by warrants which are sent by post.

The accounts are made up annually to December 31. Credit to sinking fund at December 31, 1914, £6,738. Telephone number, 1092, Sunderland. The 3 per cent. funded debt, £142,000, is quoted in the official list amongst Public Boards, &c.

Livingstone Wood. *Office:* Worcester.—Mortgages to the amount of £270,000 were created under the Severn Navigation Acts, 1842 to 1869, and the principal sum of £65,643 remains due thereon. Interest on these mortgages is computed to June 30 and December 31. The sum of £30,000 has been borrowed on mortgages under the Severn Navigation Act, 1890, and is repayable with interest thereon out of the increase of tolls above £8,245 16s. 2d., the average amount of the tolls for the three years ending June 30, 1889. The tolls received in the ten years to 1913-14 varied between £6,005 and £6,776, and for 1914-15 they amounted to £5,102. Interest has been paid to June 30, 1893, on the amounts borrowed under the Severn Navigation Act, 1890, and to June 30, 1905, on the old mortgages, together with, as regards the latter, something on account in respect of the second half of 1905.

Shoreham Harbour Trustees.—*Clerk:* C. Baguley. *Office:* Southwick, Brighton.—This trust was incorporated in 1816. In 1887 the capital was entirely reconstructed, and now there are only two classes of debenture stock—£81,800 debenture stock A, bearing 4½ per cent. interest (balance outstanding of £84,000 issued in 1887 and since at par and upwards, to redeem mortgages), and £29,300 debenture stock B, bearing 4 per cent. interest (issued in 1887 in exchange for the original shares). Interest on both classes is payable January 5 and July 5, and the stocks are redeemable at par by drawings out of surplus funds whenever there is £100 available. The accounts of the trust are made up annually to June 30. In addition to the above there is a 4 per cent. mortgage loan for £5,985, which is to be redeemed by half-yearly payments of £275. Interest on the A stock is being regularly paid, but that on the B stock is in arrear as from January 1, 1911, and no interest on this stock is to be paid until the mortgages have all been redeemed. In 1913-14 after charging interest on the A debenture stock there was a surplus income of £2,062, and on June 30, 1914, revenue account was in debit to the extent of £11,046, which in 1914-15 was increased to £11,453, this, however, including £4,898 accrued interest to date on the B debenture stock. Sligo Harbour Commissioners.—*Secretary:* T. J. Mercer. *Office:* Sligo.—The commissioners have borrowing powers for £156,000, of which £56,000 has been obtained on bonds of £100 each, carrying 4 per cent. interest, payable January 1 and July 1, while the principal is repayable January 1, 1945, at par, or at 103 per cent. at the option of the commissioners on January 1, 1920, on six months' notice; and £4,500 on bonds at 4½ per cent. After charging revenue with interest and sinking fund for the debentures, expenditure in 1913 was £64 in excess of revenue, and the credit to revenue then stood at £23,275. The accounts for 1914 have not been received. Transfer form for debentures, common; fee, 2s. 6d.

South Staffordshire Mines Drainage Commissioners.—*General Manager and Receiver:* Edmund Howl. *Secretary:* W. Purslow. *Office:* Trindle House, Dudley. Telegraphic address, Mines Drainage, Dudley.—By act of parliament passed in 1873 this commission was appointed for the purpose of "facilitating the drainage of mines in parts of South Staffordshire and East Worcestershire." To defray the costs of the necessary works the commissioners were authorised to make certain charges on all minerals raised. The districts served are divided into four sections, and on the security of the rates derivable (only) from the most extensive section—the Tipton—there have been made two issues of debentures publicly, and there were other loans chargeable to the district. The whole of the loan was reissued in 1892 under the authority of an act of parliament, as described below. On November 2, 1888, Mr. Howl, the general manager, was appointed receiver, as the result of an action in the Court of Chancery, from the inability of the commissioners to pay off short-dated bonds which had fallen due, amounting to over £20,000, and interest fell into arrear. In 1891 the act referred to was passed, enabling the commissioners to issue a priority loan, limited to £100,000, to complete the drainage works (this loan is referred to in the following paragraph); and the action mentioned above was stayed, Mr. Howl being appointed receiver of the rates, revenue, and property, under the new act. The whole of the existing mortgages were called in, and new mortgages for £100 each, to rank pari passu, and secured on all the property and revenue of the commissioners in the Tipton district, instead of on the rates only, issued. The new mortgages, known as B bonds, amount to £265,295, bear interest at 3 per cent. (cumulative) immediate payment (by cheque), and a deferred 1 per cent. (also cumulative), for which certificates are to be issued when the B mortgages commence to be paid off and surrendered. The sinking fund to pay off these certificates will not begin until after the repayment of the mortgages A (comprised in the loan of £100,000 referred to in the following paragraph) and B class. The receiver was authorised to pay away the balance of revenue at June 30, 1891, in reduction of the interest overdue at that date, and this amounted to 22 per cent. of the total due; certificates were issued for the balance; these certificates will be paid off when the other claims which have priority have been met. The new act clearly defines the order of priority in which the receiver shall meet the engagements of the commissioners each year. A committee of bondholders was named in the act. This committee has very large statutory powers, namely, the appointment of an arbitrator, the appointment of any future receiver, power to appeal against assessments or graduation of rates, a veto on all capital expenditure, and a veto (through the receiver) upon expenditure from revenue; the new loan also had to be issued under their approval. Annual meetings of holders of mortgages of the B class are held to elect members of the statutory committee and to receive reports. For the year ending June 30, 1892, payments of interest were made amounting to £1 7s. 6d. per cent.; for 1892-3, £1 3s. 2½d.; for 1893-4, £2 7s. 0¾d.; and for 1894-5, 2s. 3½d. For the years 1896-1902 (inclusive) a payment of 18s. $4\frac{3}{10}$d. per cent. was made on August 3, 1904; nothing since.

An act of parliament was passed in 1894 which gives a collateral security upon a proportion of the mines themselves, and on this security the Public Works Loan Commissioners have granted a 4 per cent. loan of £100,000, repayable by instalments over twenty years by way of annuity. The advances which have the benefit of this collateral security amount to £87,688. The works under the new engineering scheme which have been carried out consist of underground levels in the lowest measures of coal to connect flooded mines with the commissioners' main pumping engine, in addition to three main steam pumping engines, and four pumping plants worked by Mond gas engines, through gearing.

A further act of parliament was passed in 1904 enabling the commissioners, if the Tipton rate and revenue should be insufficient to meet the working expenses of the Tipton district, to make up the deficiency out of moneys borrowed from the Public Works Loan Commissioners, and out of the same moneys to provide working capital to a limited extent. The act of 1904 also repealed the provisions of the act of 1891 as to sinking fund, and substituted provisions giving the commissioners

power to enter into agreements with the Public Works Loan Commissioners with respect to the mode and time of repayment of the moneys borrowed under the acts of 1891 and 1894.

Another act of parliament was passed in 1914 which fixed the amount to be paid by the Birmingham Canal Company for water pumped into the canal, and the price and manner of payment for certain scheduled pumping plants, the fee simple of which is to be conveyed to the canal company on August 1, 1924. The new act authorises the drainage commissioners to apply the purchase money of the scheduled plants (£20,000) at the rate of £2,000 per annum, towards the cost of continuing the pumping operations in the Tipton District during a period of 10 years, commencing on August 1, 1914. The act authorises the borrowing of further moneys and their application to cost of pumping. An agreement (confirmed by the act) provides that if the fixed annual instalments to be received from the canal company in respect of the purchase of the scheduled plants when added to the other revenue is insufficient to maintain the pumping operations in the Tipton district the Public Works Loan Board shall advance such sums as from time to time may be necessary to enable the drainage commissioners to continue the pumping during a period of 10 years. Under the provisions of the South Staffordshire Mines Drainage Act, 1914, a further sum of £12,532 was advanced by the Public Works Loan Commissioners on August 14, 1914, to rank as a charge on the Tipton revenue and property after the previous mortgages of the A class, but in priority to the mortgages of the B class, and a further £5,000 was advanced to enable the Drainage Commissioners to maintain pumping operations during the year ended June 30, 1915.

West Taylor. *Registered Office:* 109, Victoria Street, S.W.—The company was registered February 15, 1900, in reconstruction of a company of the same name registered July 29, 1896, to carry on the manufacture of "sparklet" bulbs, bottles, syphons, &c. The company has also placed on the market a portable soda water machine, a tyre inflator for motor cars, fire extinguishers, alloy die-finished castings, and various applications of compressed gases in small portable cylinders. In 1905 the capital was reduced by one-half, and in 1909 additional shares were created, while in 1912 large bonuses were declared on the issued preferred ordinary and ordinary shares, and the old issued ordinary and preferred

ordinary shares were converted into an equivalent amount of 6 per cent. cumulative participating preferred ordinary shares, of which a further £50,000 was created. The authorised capital is now £150,000, £120,000 being in 6 per cent. cumulative participating preferred ordinary shares of £1, and £30,000 in ordinary shares of 5s., and £98,539 of the preferred and all the ordinary have been subscribed and called up. After payment of the fixed rate of 6 per cent. on the preferred ordinary shares any surplus is to be divided—as to 25 per cent. amongst the preferred ordinary shareholders, and 75 per cent. amongst the ordinary shareholders, subject to the proviso that, so long as the number of preferred ordinary shares issued shall be less than 120,000, the amount of the surplus distributed amongst the holders thereof shall be only such a proportion of 25 per cent. as may be borne by the number for the time being issued to 120,000; in the event of liquidation the preferred ordinary shares are to have a priority as regards capital and arrears of dividend, and, of any surplus assets, 25 per cent. is to go to the preferred ordinary shares and 75 per cent. to the ordinary. There is also 5 per cent. mortgage debenture stock for £22,403 (part of £45,000 authorised), with interest payable April 1 and October 1, and the principal repayable April 1, 1923, at par, or previously by drawings or purchases at or below par. At December 31, 1914, there was a banker's overdraft for £11,827, secured by £22,500 5 per cent. first mortgage debenture stock and £5,000 6 per cent. second debenture stock.

The accounts are made up annually to December 31, and submitted in June. For the six years to 1911 the old 5s. ordinary and preferred ordinary received 8 per cent. per annum, and in connection with an increase of the capital it was decided at the close of 1911 to pay a bonus of 25 per cent. on the old preferred ordinary shares, which was taken out in new preferred ordinary shares, and a bonus of 40 per cent. on the old ordinary and preferred ordinary shares, which was taken out in ordinary shares, these payments being debited to the reserve funds. For 1912 and 1913 the preferred ordinary dividend was paid, but there was no distribution on the ordinary shares. For 1914 there has so far been no dividend on either class of shares, owing to the dislocation of the company's business caused by the war; in respect of that year, after meeting debenture interest, there was a profit of £3,708, and this sum, with a credit balance of £7,638 brought down and reserves of £6,814, amounting in all to £18,161 was placed against "shares in and detbs owing by subsidiary and affiliated companies," reducing that item to £11,066. Alto Parana Development Company, Limited.—*Directors:* J. Railton (Chairman), H. J. Bell, E. B. Butler-Henderson, A. G. Gumpert and S. H. M. Killik. *Secretary:* G. R. Cable. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered December 23, 1912, to acquire the share capital of 6,000 fully-paid shares of $100 gold of a company incorporated in Argentina in 1906, the local title of which is La Sociedad Anonima Compañia de Maderas del Alto Paraná. The properties of the Argentine company consist of approximately 621,000 acres of cedar and hardwood forests, 57,500 acres of pine forests, all in the province of Paraná, Brazil, together with a fully equipped sawmill at Corrientes. The preference capital as mentioned below was issued to provide for further development, the repayment of a debenture debt of £47,619 and the reduction of other indebtedness amounting to approximately £80,000. The authorised capital is £660,000 in shares of £1, one-half being in preference and one-half in ordinary, and the entire capital has been subscribed and paid up, all the ordinary shares having been allotted to the vendors and others fully paid. The preference shares rank first for non-cumulative dividends of 6 per cent., and after payment of a like rate on the ordinary are to participate pro rata with the latter in surplus profits. The preference shares have also a priority as to capital and are to participate pro rata with the ordinary in surplus assets after repayment of the latter.

The accounts are made up annually to June 30, and submitted in February. For the period to June 30, 1913, a dividend of 4·64d. per preference share was paid out of funds provided for that purpose by the chairman of the Argentine company; and in respect of the year 1913-14 the chairman of the Argentine company undertook to provide a sum sufficient to pay 4 per cent. on the preference shares, but owing to the abnormal situation caused by the war this dividend has not yet (November, 1915) been paid. Debit to revenue account at June 30, 1914, £438. The accounts of the Argentine company for the year ended June 30, 1914, showed that a credit balance of £1,615 brought down had been converted into a debit of £24,504, the loss having been largely caused by the abnormally low state of the Alto Paraná River for a prolonged period, thus preventing the bringing down of timber from the forests. (other than the subscribers to the memorandum of association), £1,000 of shares of either class. Transfer form, common; fee, 2s. 6d. Telephone number, 1101 London Wall. The preference shares are quoted in the official list; latest price, 2s.

The authorised capital is £450,000, £250 being in participating shares of 1s., £149,750 in preference shares of £1, and £300,000 in ordinary shares of £1. The issued and paid-up capital now consists of all the participating shares, £174,012 preference stock and £206,323 ordinary stock, £95,964 of preference shares having been converted in 1911 and since into a similar amount of preference stock, and £284,371 of ordinary shares into £78,048 of preference stock and £206,323 of ordinary stock. The participating shares originally ranked first for one-fifth of the profits, and the preference shares were then entitled to cumulative dividends of 7 per cent., the balance to go to the ordinary, while on a winding up the participating shares ranked first for repayment, and also for one-fifth of any surplus assets remaining, while out of the then surplus the preference shares were to have priority for capital and arrears of dividend over the ordinary. In July, 1914, resolutions were passed and confirmed under which the right of the participating shares to one-fifth of the profits was abrogated, and in lieu thereof, the participating shares became entitled to a dividend, as from December, 1911, equal to eight times the 7 per cent. cumulative dividends paid on the preference stock since that date, the balance of profits to be divisible amongst the ordinary shares or stock. In the event of a winding up the participating shares are to rank pari passu with the preference stock, but so that they are to receive eight times the amount repaid to the preference stockholders, surplus assets to be distributed amongst holders of ordinary shares or stock. There are also 6 per cent. debenture stock for £90,100 (part of £150,000 authorised), with interest payable June 30 and December 31, and the principal repayable December 31, 1950.

The share capital of the company is fully paid up, and its available financial resources are approaching exhaustion. At the present rate of production and of expenditure the funds would not last far into next year, and it has become necessary to revise the programme of operations. The directors have every reason to hope that the boring operations now being conducted, if freed from such obligations as are unsuited to existing conditions, can be carried on with greater economy and despatch and may result in securing a paying production. To attain this end and to subject the fields to a sufficient test, it will be necessary to invite the co-operation both of the Egyptian government and of the shareholders." Arauco Company, Limited.—*Directors:* Sir R. Harvey (Chairman), B. E. Greenwell, W. Shield and J. J. Smith. *Secretary:* J. Edwards. *Office:* 80, Bishopsgate, E.C.—The company was registered August 23, 1886, to acquire a concession from the Chilian government for the construction of a railway, and the company also holds (mostly on lease from private persons) coal and other properties. The concession for the railway is in perpetuity, and there is no option of government purchase. There was formerly a government guarantee in respect of the railway, but this has expired, and the obligation of the company to repay the government advance (£15,000) made under the guarantee was redeemed in 1909. In 1904 a reconstruction of the debenture capital was carried out, and the capital is now as under:—

£477,820 Ordinary shares of £10, fully paid. Total amount authorised, £500,000. Of these shares £125,000 were formerly 10 per cent. cumulative preference, until 50 per cent. dividend in all had been paid; this was effected by the dividend paid in 1909, and all distinction between the two classes has now ceased.

£298,164 Five per cent. irredeemable first debenture stock, the total authorised being £300,000. Interest is payable January 1 and July 1, and the stock is secured by a trust deed upon the railway, mines, and other immovable property. The stock is not to be redeemed except on the sale of the railway or the voluntary winding up of the company, when it is to be redeemed at the average price thereof on the London Stock Exchange for the three years preceding the liquidation, or at 105 per cent., whichever shall be the greater.

£275,000 Six per cent. redeemable second mortgage debenture stock, being the total authorised. Interest is payable January 1 and July 1, and the stock is secured on the same properties as, but subordinate to, the first debenture stock. It is provided that out of the surplus net revenue of the company of each year, after providing for all interest charges, the company is to set aside for the redemption of the second debenture stock, by drawings at par, or by purchases in the open market at below par, plus accrued interest, such a sum as will be equal to the interest on so much of the debenture stocks and income debentures as for the time being shall not have been issued, or shall have been redeemed, plus the sum of £3,790, or so much up to that amount as the surplus for the year shall reach. The company has power to increase the redemption fund, and on July 1, 1914, such a sum was set aside as, with the fund provided under the trust deed, was sufficient to allow of the redemption at par of 10 per cent. of the debenture stock outstanding, leaving the amount outstanding at £177,223.

£75,000 Five per cent. income debentures of £100 each (being the total authorised), issued in September, 1909, at 81 per cent., with interest payable only out of net revenue after providing prior interest and other revenue charges, and the principal repayable at par, or by purchase at under par, at any time after the whole of the second debenture stock has been redeemed. The annual service for interest on these debentures, while subsequent to that on the first and second debenture stock, takes priority over the fund for the redemption of the second debenture stock.

The accounts are made up annually to December 31, and submitted in April. The line (103 kilometres in length) was opened throughout on April 2, 1890. Subsequent to the reorganisation of the debenture capital in 1904 debenture interest was duly paid, but the debenture stock redemption fund was for a time in arrear; in respect of 1908 a dividend of 15 per cent. was paid on the preference shares (representing the balance of arrears of dividend on these shares, and cancelling all distinction between these and the ordinary); for 1909 only debenture charges were met; for 1910 the share capital got 2½ per cent.; for 1911, 6; for 1912 and 1913, 10; and for 1914, 7—3 per cent in respect of the latter year from railway earnings and 4 from colliery earnings. Reserve fund, £40,000; reserve for equalisation of dividend, £25,000; renewal reserve, £20,000; coal mines extension reserve, £20,000; carried forward, £12,391. On account of 1915 3 per cent. was paid in October. In the nine months to September 30, 1915, the gross receipts of the railway were £58,575, as against £67,424 in the corresponding period of 1914.

Voting power, one vote for every 10 shares, held for three months. Director's qualification, 200 shares. Transfer form, common; fee, 2s. 6d. per deed; the debenture stocks are transferable in sums of £1 and multiples. Not more than four joint holders are allowed. Telegraphic address, Aventurine, London. Telephone number, 3262 London Wall. The company is quoted in the official list. Latest prices—shares, 6¾; 5 per cent. debenture stock, 91¼; 6 per cent. debenture stock, 90½.
